

***Bimini Top***

Part # 45820

Diagram A

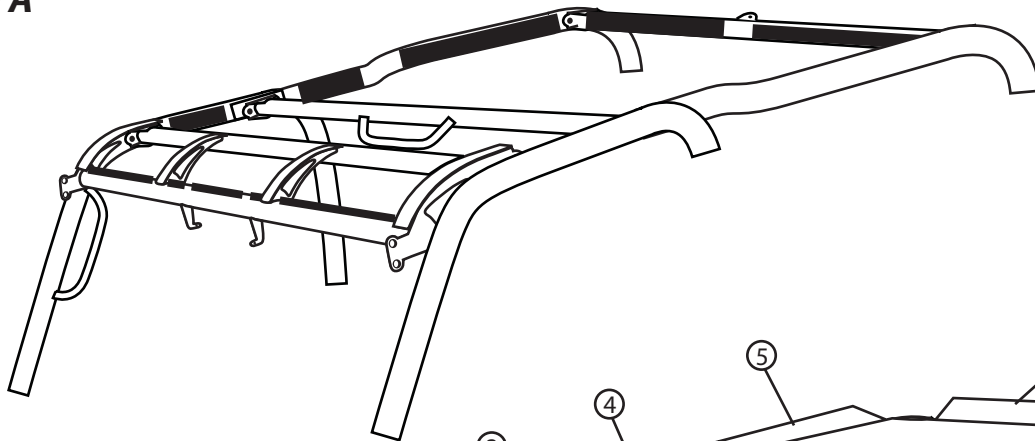

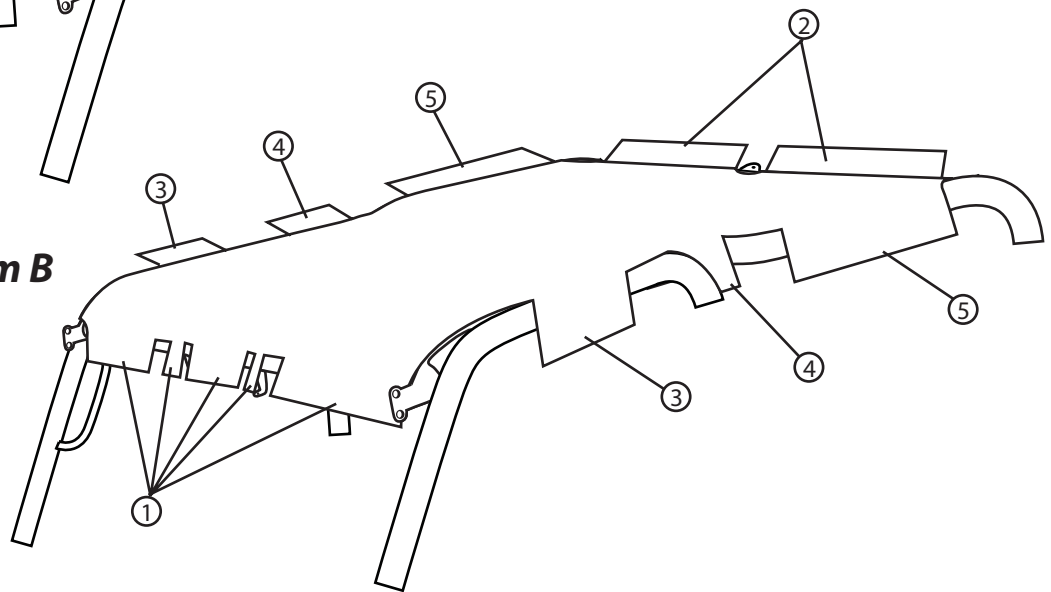

Diagram B

***Installation Instructions***

Prior to getting started, we recommend you using gloves and wearing safety glasses for proper protection.

- 1.) Thoroughly clean the inside of upper cage with rubbing alcohol.
- 2.) Cut out strips of velcro to match the strips sewn into the Bimini Top.
- 3.) Apply strips to inside of upper cage to match location of the Bimini Top velcro (Diagram A).  
*NOTE: Allow adhesive to cure for 24 hours before applying top to insure maximum grip.*
- 4.) Layout top on upper cage. Wrap front of top around bar and attach to velcro (Diagram B #1).
- 5.) Pull rear of top firmly wrapping around and attaching to velcro (Diagram B #2).
- 6.) Follow up by pulling and wrapping from front to back on the sides (Diagram B #3-5).

**Hardware Included**

- Velcro

**Tools Required**

- Rubbing Alcohol
